James Tam What Is Hardware? • A computer is made up of hardware • Hardware is the physical components of a computer system eg, a monitor, keyboard, mouse and the computer itself James Tam

Introduction to Computing

This book started from the premise that Computer Science should be taught as a liberal art, not an industrial skill I had the privilege of taking 6001 from Gerry Sussman when I was a first year student at MIT, and that course awakened me to the power and beauty of computing, and inspired me to
